Part-time teachers need to come in to distribute tests and be available to answer students’ questions. Contact Mr. Netz immediately if you cannot come in that morning.

What if it snows? The test that was scheduled will be given on the day students return to school after the snow day(s). Example: If it snows on Monday and we have off the students would take the two Monday tests on Tuesday. The length of the day will not change but the test(s) will “shift” according to the day of return to classes.

Inform home school students of these changes in the schedule.
